TimeControl Benefits

Challenge

Your organization has already adopted SharePoint for collaboration. Now you need to track timesheets without making users leave their familiar SharePoint and to learn a new interface.

Response

TimeControl's interface can be provisioned directly into SharePoint.

Using TimeControl within SharePoint delivers an uninterrupted user experience. Users are able to do their timesheet in TimeControl without ever leaving their familiar SharePoint environment.

- ✓ HMS designed TimeControl to be presented within the SharePoint interface since SharePoint's first release in 2002.
- ✓ TimeControl has been installed in SharePoint 2002, 2003, 2007 and 2010.

TimeControl and SharePoint

- ✓ The TimeControl Installation Guide gives step-by-step instructions on how to implement TimeControl within SharePoint
- ✓ TimeControl is not dependent on SharePoint and does not share its database
